

## **Matthias Eberhard, EBCR**

Dr. Matthias Eberhard is staff radiologist at the University Hospital Zurich and leads the Radiology Department at Privatklinik Bethanien, Zurich, Switzerland. His primary expertise is non-invasive CT and MR imaging of cardiovascular and thoracic diseases using photon-counting CT in clinical routine since 2021.

Dr. Eberhard is a frequent speaker at international conferences and has authored more than 130 scientific papers and book chapters. His current research focuses on cardiovascular photon-counting CT with ultra-high-resolution and the potential benefits of spectral cardiac imaging.

Dr. Eberhard is an active leader in cardiac imaging. He currently serves as a member of the Scientific Subcommittee for the European Congress of Radiology (2025 and 2026), as a member of the Guidelines Subcommittee of the European Society of Cardiovascular Radiology (ESCR), and as the Junior Deputy Editor for the cardiac section of *European Radiology*.
