

## ***Roberto García Figueiras***

Dr. Roberto García Figueiras is a radiologist in the Department of Radiology at the University Clinical Hospital of Santiago de Compostela (Spain), where he carries out his clinical work in the field of oncologic imaging, focusing mainly on functional and molecular imaging of abdominopelvic tumors and on the evaluation of tumor response.

His doctoral thesis, centered on the usefulness of functional and molecular imaging techniques in the study of tumors, received the distinction of Summa Cum Laude and the Extraordinary Doctorate Award from the University of Santiago de Compostela (USC).

He has published 16 book chapters and more than 90 articles in leading international radiology journals.

In addition, he has received nearly 30 awards from the most prestigious radiological societies, including RSNA, ECR, ESGAR, ESUR, ESTI, SERAM, and SGR, and has been a speaker at major national and international radiology courses and congresses, as well as at numerous oncology specialty meetings (radiotherapy, medical oncology, surgery, and urology).
